

Unrecognised recurring payment - intake

Field	Value	Field	Value
Call reference	CALL-52377-20260813	Duration	4 minutes
Started	13 Aug 2026, 08:15 SAST	Channel	Inbound fraud line
Customer	Nomvula Dlamini	Case reference	VIYA-FNB-CF-52377
Card	ending 2260 / token held in system	Action during call	None recorded

Agent's running note

*Cust says there is a payment she did not make and it is not an amount she has paid before. Statement shows DLB*SPCPT ZA R429.00. She does not recognise DLB or SPCPT and knows no business by either name.*

Cust cannot connect the statement description to any merchant, subscription or membership. Says she has not sent a cancellation instruction to FNB. No merchant or underlying service was suggested to her during intake.

No other transaction disputed. Card remains with customer. No loss of phone, SIM issue, suspicious call, message, link, password concern or account-access problem reported. No containment action taken during this four-minute call pending review of the recurring-payment record.

Customer calm. R429 matters because balance is low before payday. No health, distress, communication-support, age-related or isolation concern raised. English preferred. Told customer the transaction record would be checked and that she could still continue with a fraud report if she did not accept the explanation provided.

Customer statements captured

Question	Recorded answer
Do you recognise DLB*SPCPT ZA?	No
Does DLB or SPCPT mean anything to you?	No
Have you paid R429.00 to this description before?	No
Did you cancel through FNB?	No
Did you contact any merchant about this debit?	No - I do not know who it is
Do you dispute any other transaction?	No

Synthetic evidence note. This file records the caller's account and agent actions only. It does not determine transaction ownership, recognise a merchant relationship, close a case or authorise a customer message.
