

Industry SIM-Swap Feed											
Raw operator and publication timestamps local time SAST											
Feed Ref	Operator	Subscriber Ref	Operator Event Time	Event Type	Customer Present?	Identity Evidence	Operator Outlet	Published to Industry Feed	Feed Status	Source System	Source Note
MNO-53042-01	Mobile Network Opera	MSISDN-53042	2026-08-13 09:20	SIM replacement / swap	No	Identity document presented	Mobile Network Operator A retail store - outlet ref withheld	2026-08-13 10:47	Published	Operator Feed	Document verification outcome not supplied
MNO-53042-02	Mobile Network Opera	MSISDN-CTRL-101	2026-08-13 08:11	SIM replacement / swap	Yes	Identity document presented	Mobile Network Operator B retail store - control record	2026-08-13 08:13	Published	Operator Feed	Unrelated control record

Feed Integrity Checks

Presence checks only; no latency calculation

Check	Actual	Expected	Difference	Status
Target operator rows	1	1	0	OK
Target swap rows	1	1	0	OK
Target publication timestamps	1	1	0	OK
Elapsed-minute calculation fields	0	0	0	OK

Data Dictionary		
Feed timestamps are raw source evidence		
Field	Meaning	Type
Operator Event Time	Timestamp supplied for the operator-side event	Date/time
Customer Present?	Presence flag supplied in the feed record	Text
Identity Evidence	Evidence type recorded; authenticity outcome is not supplied	Text
Published to Industry Feed	Timestamp the event became available to subscribers	Date/time
Feed Status	Publication state	Text
Source Note	Known evidence limitation	Text
Latency minutes	Not stored and not calculated here	Excluded
Responsibility finding	Not stored in this workbook	Excluded
